The experts in swimming pool covers

Quality and Italian design

Abritaly is a key player in the pool covers market, not only in Italy but also abroad.

With **over 40 years of experience** and a wide range of products (more than 45), Abritaly will help you to choose the best cover for your pool and **accompany you during the installation process.**

The quality of the materials, the patents, the after-sales service and the timeless style of design Made in Italy, make Abritaly one of the most qualified companies in the field of swimming pool covers.

YOUR PROJECT IN 5 STEPS

-  Free on-site visit
-  An offer for a made-to-measure cover
-  Production of your bespoke project
-  Cover installation
-  After-sales service

RESPECT FOR THE ENVIRONMENT

All Abritaly covers:

-  Heat the water in the pool naturally, without using electricity and those that are motorised are powered by solar energy.
-  Protect the pool water from external debris. Cleaner water drastically reduces maintenance and the use of chemical products.
-  Are designed to last for years, limiting waste and scraps.
-  Considerably reduce the environmental impact of transportation as all the logistics activities are grouped together.

MINIMAL

BACK TO INDEX

Abritaly **Minimal** covers are specific for flat pools and have an essential, elegant design that impacts minimally on the surrounding environment.

THE ADVANTAGES OF MINIMAL COVERS

COVERSEAL COVERS

FLAT COVERS

ROLLER COVERS

ULTRA-LOW TELESCOPIC COVERS

MINIMAL

COVERSEAL COVERS

A unique cover that is stylish, safe, and elegant. Coverseal is the new generation of pool covers.

The result of three years of research, this unique and highly technological product is without par on the market.

Available in various colours and models:

- **AUTOMATIC,**
- **SEMI-AUTOMATIC,**
- **MANUAL.**

Always perfectly tensioned, these covers do not accumulate water and allow you to walk on them.

An ECOLOGICAL product that does not need electricity since it is self-powered.

MINIMAL

COVERSEAL COVERS

MINIMAL

FLAT COVERS

This type of cover features modular, stackable or vertically juxtaposed panels, that slide manually or automatically, covering the entire surface of the pool, blending in with the pool and fitting in perfectly with the environment.

Easy to use, its attractive design appears even more elegant and neat even when the cover is open.

MINIMAL

FLAT COVERS

MOTORISED FLAT COVERS

REMOVABLE FLAT COVERS

MINIMAL

ROLLER COVERS

Abritaly roller covers are extremely practical.

Thanks to the automated opening and closing system, each type of cover can be customised according to your needs without sacrificing on the simple and elegant design.

This is a very versatile type of pool cover that adapts perfectly to the shape of the pool, thanks to the variety of materials and colours available, as well as the possibility of choosing from the junior roller model with bench or the submerged version.

MINIMAL

ROLLER COVERS

MINIMAL

ULTRA-LOW TELESCOPIC COVERS

Abritaly telescopic covers are the ideal solution for those who would like an elegant and practical pool cover, completely rail-free.

Unlike normal telescopic covers, this is a particularly stylish model thanks to the discreet design and minimum footprint and also to the type of material used, which makes the cover completely transparent intensifying the colour of the water in the pool.

MINIMAL

TELESCOPIC COVERS

BASIC

BACK TO INDEX

In designing the **Basic** line of covers, Abritaly has invested in comfort and efficiency. These models are in fact the most intuitive to use, whilst offering a wide selection of customisations.

THE ADVANTAGES OF BASIC COVERS

LOW COVERS

LOW TELESCOPIC COVERS

BASIC

LOW COVERS

These covers are very versatile, a characteristic that is of the utmost importance for the team at Abritaly. Thanks to their reduced thickness, which still allows you to swim in the covered pool, they integrate perfectly into the environment, without modifying the design of the cover.

The PLUS models are the most resistant to snow and wind loads and so they adapt very well in mountainous areas.

You can choose from a selection of **removable low covers** consisting of several modules (honeycomb or cristal) that can be lifted or stacked, allowing you to personalise the cover according to your needs or **low sliding covers** (honeycombed or cristal) that are rail-free and have various options.

BASIC

LOW COVERS

BASIC

LOW TELESCOPIC COVERS

These telescopic covers are characterised by panels that slide one over the other, made of resistant and patented material that does not disturb the style of the surroundings.

Particularly convenient and functional, among the various options, Abritaly also offers a motorised version that allows to move all its modules by simply using a remote control.

Thanks to the sliding telescopic system it is possible to create doors and openings that best adapt to your preferences and to how you use your pool.

BASIC

LOW TELESCOPIC COVERS

COMFORT

BACK TO
INDEX

The models in the Abrisitaly **Comfort** line create a charming sheltered space that favours a moment of relaxation by the pool.

THE ADVANTAGES OF COMFORT COVERS

MEDIUM HEIGHT TELESCOPIC COVERS

SEMI-HIGH COVERS

COMFORT

MEDIUM HEIGHT TELESCOPIC COVERS

Comfort medium height telescopic pool covers are characterised by their simple and intuitive use, as well as for their airtight closure that protects the pool from various weather conditions, allowing the pool to be used all year round.

Motorised versions are also available.

COMFORT

MEDIUM HEIGHT
TELESCOPIC COVERS

COMFORT

SEMI-HIGH COVERS

Comfort semi-high pool covers are characterised by resistant materials, a unique lightweight structure and by the added value they bring to your home.

All Abritaly covers are equipped with cutting-edge technology, allowing them to be operated remotely.

Various models are available, such as the semi-high honeycombed, motorised honeycombed, cristal and motorised cristal.

COMFORT

SEMI-HIGH COVERS

RELAX

BACK TO
INDEX

The models in the Abrisity **Relax** line completely cover and protect the pool, offering a pleasant space in which to spend relaxing moments in and out of the pool.

THE ADVANTAGES OF RELAX COVERS

ALUMINIUM COVERS

WOOD COVERS

EXTRA-LARGE COVERS

RELAX

ALUMINIUM COVERS

Relax aluminium pool covers are particularly light but equally resistant structures.

Owing to the great versatility of this material, sectional structures and various thicknesses can be produced.

A sturdy structure thanks to the great strength and resistance of the stainless-steel connection plates and the steel M8/A2 fixing screws.

RELAX

ALUMINIUM COVERS

RELAX

WOOD COVERS

Relax wooden pool covers are suitable to lend a certain elegance in your own garden.

This material has been used successfully in the building industry and in almost all public swimming pools, allowing to blend aesthetics, solidity and durability.

Wood also allows to customise the structures needing particular adjustments.

RELAX

EXTRA-LARGE COVERS

The solution adopted by tourist facilities and by those who wish to have a space dedicated to relaxation, sport and fitness or an outdoor lounge.

Abritaly's experience and know-how allow us to manage large-scale projects. Camping sites, hotels, B&Bs, restaurants have already relied on us to cover their 25 m wide pools.

The use of tempered safety glass is a great advantage since this material perfectly complies with the regulations in force for public swimming pools and the relevant fire regulations.
